Clerk to the Council
Mrs Sheila Scholes

For Publication Sleaford Town Council Website.

Land off Boston Road, Tesco (Formerly Advanta Seeds) Site.

Sleaford Town Council has recently been made aware of current proposals regarding the provision of an access road to the above site. Having considered these proposals, the Town Council wishes to make its position clear to all concerned by issuing the following statement:

1. Sleaford Town Council supports development of the Tesco site that will provide a genuine benefit for the regeneration of Sleaford, and would add to and enhance the current retail offer available in the town centre.
2. The Town Council reiterates its position that it cannot support a proposal that includes loss of any Recreation Ground land.
3. Sleaford Town Council could however support a proposal to locate a road to the site through the Bristol Bowls Club, with the caveat that no road extension is permitted to extend site access over the railway line and providing the access created is local to the site only.
4. Although in receipt of outline proposals, the Town Council has not had any approach from the District or County Councils that confirm or deny their support of the suggested access road.
5. The Town Council and its professional advisors are actively seeking a meeting with the District and County Council representatives to discuss this matter further.
6. No further statement or comment will be made by the Town Council until this meeting has taken place.

Mrs. S.M. Scholes,
Clerk, Sleaford Town Council.
